

## PRESS RELEASE

TSX & NYSE: CNQ

### **CANADIAN NATURAL RESOURCES LIMITED PROVIDES AN UPDATE ON THE IMPACT OF ALBERTA FOREST FIRES CALGARY, ALBERTA – MAY 31, 2019 – FOR IMMEDIATE RELEASE**

With the protection and safety of our people and assets as the utmost priority, Canadian Natural Resources Limited ("Canadian Natural") is closely monitoring the wildfires in the Wabasca and Slave Lake, Alberta areas. In response to the wildfires, Canadian Natural completed on May 30, 2019 the evacuation of all 240 personnel in our Pelican Lake and Woodenhouse operations. Accordingly, Canadian Natural has completed the safe, temporary shut-in of approximately 65,000 bbl/d of crude oil production.

Canadian Natural personnel are working together with Alberta Agriculture and Forestry as well as local officials during their response to the wildfire. Canadian Natural is continuously monitoring the situation with officials, and we will provide a public update when operations can be re-started, once safe and permitted to do so.

We wish to thank our staff, firefighters and emergency responders for their tireless work in response to the wildfires. Our thoughts are with our employees, their families, and our neighbours in local communities during this challenging time.

Canadian Natural is a senior oil and natural gas production company, with continuing operations in its core areas located in Western Canada, the U.K. portion of the North Sea and Offshore Africa.
